AUDIO

AMERICAN AUDIO

AMERICAN AUDIO VMS DIGITAL WORK STATIONS The VMS4 is a digital workstation & MIDI controller with 4 USB/analog selectable MIDILOG™ (MIDI and Analog) channels. All audio control faders, knobs, switches, and buttons are smooth, eliminating popping/wiper noises. Also features full analog mixer operation in the event of a computer crash, a 1.6mm-thick faceplate, a built-in mouse pad and MIDI assignable touch-strips. Audio is 24bit/48kHz or 16bit/44.1kHz USB audio. Includes 2 phono/line selectable analog channels and 2 XLR mic channels. The VMS2 features 2 MIDILOG channels, 1 mic input with gain and tone control, crossfader curve adjustment, balanced XLR outs, and comes with Virtual DJ Software™.

NATIVE INSTRUMENTS

NATIVE INSTRUMENTS TRAKTOR S4 PERFORMANCE DJ SYSTEM Custom-tailored for TRAKTOR, the S4 fuses a premium-quality 4 channel DJ mixer, a built-in 24bit/96kHz soundcard, an intuitive controller, and the flagship TRAKTOR PRO S4 software into one fully professional solution - the ideal one-stop package for DJs who want pro features, instant usability and go-anywhere portability. It features sturdy faders, CUE buttons, illuminated level meters, high-quality 3-band EQs and a filter control knob on each channel. The filter is switchable between Traktor and Xone-style. The ergonomic layout has been created by DJs for DJs, with some of the world's biggest names having direct input in to the design. It's easy to integrate other DJ and performance gear like turntables, CD players or a microphone via the inputs. It includes 4 line/phono selectable RCA inputs, two RCA and 1/4" main outs, 1/4" mic input with gain knob, footswitch, and MIDI I/O connectivity.

Numark

NUMARK MIXDECK UNIVERSAL DJ SYSTEM

For DJs with multiple music sources such as CDs, USB drives or portable audio devices. It features 2 touch-sensitive platters and controls for cueing your music and can also act as a software controller by connecting to your computer via USB cable. The MIXDECK can also receive 2 stereo audio channels via USB. It features an integrated dock, a dedicated fader, menu controls, a click knob, and the capability to record a live mixed set onto an iPod. Each input channel on the MIXDECK features 3-band EQ and gain rotary kills (+12db/-INF), and the fader features switchable slope and reverse. Adjustable beat-synced DSP effects include chop, flanger, echo, filter, phaser, and pan. Additional features include, beat & pitch tools, a tap tempo button, Key Lock, pitch-bend buttons, seamless looping, sampling, and fader start. Inputs include 2 sets of switchable stereo phono/line inputs and a 1/4" mic input with gain and bass & treble EQs. All outputs are stereo and include balanced XLR & unbalanced RCA main outs, RCA booth and record outs, RCA deck 1 & 2 outs, direct stereo outs on each deck for use with interfaces like Serato Scratch LIVE, and 1/8" & 1/4" cue/headphone outs.

NUMARK NS6 4-CHANNEL SERATO™ ITCH CONTROLLER/MIXER

NEW!

This 4-channel digital controller has a mixer with effects and 4 decks of software control. It is based on the designs of Numark's NS7FX and V7 controllers and newer features include high-resolution (3600 per rotation) touch-activated platters, Strip Search virtual needle drop technology with new track position indicators, direct access to beat grid controls, and bi-color LEDs around both wheels that indicate the deck in control and a deck's playback status. Beat skip allows you to juggle the track in line with the beat so that it never loses sync. Other features include mouseless Serato library navigation, key lock, complete pitch control, hot cues, manual & instant looping, and a 24bit audio interface. Has XLR outputs, headphone out, 2 mic ins, 2 phono ins, 4 line-level ins, and USB. Comes with Serato ITCH and is compatible with a variety of MIDI software programs.

ITEM	DESCRIPTION	PRICE
NS6	4-channel Serato ITCH controller/mixer (includes ITCH software)	999.95

NUMARK NS7FX SERATO™/ EFFECTS CONTROLLER

This high-resolution software controller comes with Serato Itch and CUE DJ programs (also compatible with any MIDI software). Features a 24bit USB 2.0 audio interface (2-in/4-out) which it uses to send MIDI signals at 2 to 3x normal speed. Has balanced XLR & unbalanced RCA connections. Because it was designed for ITCH, setup time is at a minimum.

RANE

RANE SERATO SCRATCH LIVE PACKAGE

Includes the SL1B USB interface as well as Serato Scratch Live software for the ultimate solution bridging the analog world of vinyl with the digital world of computer. Using regular turntables or CD players, you can scratch and mix files from your computer's hard drive, add in a live mic input for scratching, and even bypass to standard vinyl if you wish. The Scratch LIVE system features full iTunes library support, extensive keyboard shortcuts, and auto-BPM/auto-gain detect functions. The included SL 1 interface connects 1 or 2 standard vinyl or CD turntables to your Mac or PC. This bus-powered USB interface features 2 switchable phono or line inputs, a microphone input, 2 line outputs, and pass thru outputs for the phono/line and mic. The included 12" vinyl records each have a unique control signal that allows Scratch Live to track the motion of the record, simulating the same movement with digital audio. Package includes SL1 USB interface, a pair of control vinyl records, a pair of control CDs, Serato Scratch Live software and cables.

ITEM	DESCRIPTION	PRICE
SL1	Scratch Live DJ package	539.00

RANE SERATO SL3 USB INTERFACE

The SL 3 connects 1 or 2 standard vinyl or CD turntables to your computer and the mixer of your choice. Using regular turntables or CD players, you can scratch and mix files from your Mac or Windows computer's CD or hard drive. It features studio grade preamps, 24bit audio processing, and auxiliary I/O. The auxiliary inputs provide a live input feed for creative sampling or recording your set. Use any combination of audio sources: control CD, control vinyl, MIDI or regular CDs and vinyl for more flexibility than ever. The included 12" vinyl records and control CDs each have Serato's exclusive and unique control signal, which allows Scratch Live to track the motion of the record, simulating the same movement with digital audio.
