GEAR UP FOR EDUCATION!

The following 19 pages have been specifically designed to highlight products of interest for our Educational customers. In this supplement you will find a selection of classroom products, special software, science lab and music room furnishings which go beyond the scope of our regular catalog listings.

To see even more products than we can represent in the limited pages of this catalog, please visit us online at fullcompass.com or call a Sales Pro at 800-356-5844 for assistance and sales quotations. We have also produced a special supplement for our House of Worship customers, available for download on our web site. fullcompass.com/publications

We hope you find this catalog and the 19-page Education Market supplement useful.

ATLAS SOUND AL2430-2PH CLASSROOM SECURITY & SOUND REINFORCEMENT SYSTEM

This system is designed for use in K-12 and higher education facilities or where a room constrained public address system is required. The system consists of an amplifier/receiver, wireless microphones, and docking station. It is designed to allow the teacher and students to walk freely around the room with the infrared microphones/system control units and project their voices through installed speakers. The AL2430 pendant/handheld microphone transmitter allows teachers to control microphone volume, overall system volume and mute settings via side-mounted soft touch controls. When transmitter is configured for "student" mode operation, the transmitter functions as a wireless microphone only without the control features. Its receiver/amplifier provides intuitive control of all system components and includes inputs to accommodate most any multimedia source. The charging station includes a dock section to charge 2 pendant transmitters and 4 AA rechargeable batteries simultaneously. Unit may be wall mounted via integral keyhole slots or shelf mounted for easy accessibility. Up to 3 infrared dome sensors may be used with the AL2430 receiver/amplifier to extend wireless coverage (2 are included with the system).

ITEM	DESCRIPTION	PRICE
AL2430-2PH	Includes 2 pendant/handheld transmitters, charging station, receiver/amplifier, 2 IR receiver domes w/cables, rechargeable batteries, and power supplies	1084.50
AL2430-2PH-SD4	Same as above plus 4 Atlas Sound SD72W loudspeakers, 4 81-8 Tile Bridges, 4 CS95-8 Enclosures and 100' of plenum rated 18/2 speaker cable (Loudspeaker system is UL Listed for use in air handling (plenum) spaces per UL2043 standard	1220.50
AL-HSM	Headset w/mic	50.27
AL-DOME	Infrared dome sensor	51.50

AZDEN IR-CS INFRARED CLASSROOM SYSTEM

In today's RF saturated world a regular (VHF or UHF) microphone system risks interference from a variety of other devices and sources. This infrared (IR) system is perfect for classroom audio, since, unlike the other systems, IR is short-range, cannot penetrate walls, and is line-of-sight. This means that a school can have as many classrooms as desired with individual audio systems, without fear of interference. Since it is dual-channel, the teacher can have one microphone and a second person can also have a microphone. In addition, since each class-room system is on the same pair of channels, teachers can go from room to room without having to switch microphones. The IRR30P receiver has 2 aux inputs to connect line level devices (CD/MP3 players, VCRs, etc), and a line level output jack. For bigger rooms up to 3 additional external IR sensors can be attached. With all 4 speakers attached, sound is spread equally throughout the room, allowing students to hear equally.

ITEM	DESCRIPTION	PRICE
Complete Classroom Systems (just add speaker wiring)		
IR-CS	IR wireless/ceiling-mount speaker system w/ 1 IRR-30P receiver w/ power supply, 1 IRN-10 transmitter/mic, 1 IRH-15c handheld transmitter, 1 IRD-60 sensor, 4 ACS-6.5 speakers, 2 BC-29 AC/DC chargers, and 4 IHR-3U AA NiMH batteries	960.00
Components		
IRR-30P	Dual-channel powered receiver w/power supply, 5W x4 @ 4ohms	350.21
IRR-30	Dual-channel receiver w/power supply	306.43
IRN-10	Dual-channel selectable neck worn transmitter/ uni-directional mic combo	109.44
IRH-15C	Dual-channel selectable handheld transmitter w/uni-directional head	170.24
IRD-30	3-diode external wall mounted IR sensor	55.82
IRD-60	6-diode external wall mounted dome IR sensor (uses RG59, 75-ohm coaxial cable)	98.00
ACS-6.5	6.5" drop-ceiling mountable coaxial speaker (each)	40.93
APS-25	AC-powered speaker – can use 1 or 2 APS-IR receivers	125.97
1HR-3U	"AA" NiMH – 2000mAh rechargeable battery, each	11.20
BC-27	AC/DC power supply for IRR-15 and IRR-30	22.40
BC-29	AC/DC recharger for IRB-10c	26.14
BC-30	AC/DC power supply for IRR-30P	37.34

QP-200

CRESTRON QUICKPACKS CLASSROOM AV SYSTEM PACKAGES

These bundled systems are easy to install and easy to use. They do not require training or programming. Systems consist of a room controller, audio amplifier, surface mount presentation speakers, wall plates, cables and mounting hardware. All you need is any projector and screen though Crestron RoomView Connected™ projectors offer plug and play support with Crestron systems. Network communication is secure and allows remote control and trouble shooting of RoomView Connected™ projectors. The QP-200 allows for connection of a laptop and a video source, QP-300 allows for two computer sources and a video source, and QP-400 provides connectivity of 2 computer sources, and 2 video sources. Please visit our website for complete details of these packages.

ITEM	DESCRIPTION	PRICE
QP-200-P	QuickPack™ AV System Package with (1) CPU & (1) video source	2000.00
QP-300-P	QuickPack™ AV System Package with (2) CPU & (1) video source	2125.00
QP-400-P	QuickPack™ AV System Package with (2) CPU & (2) video source	2375.00

DUKANE

DUKANE CONVEY ACLICK SYSTEM

With the AClick system, students use remote "clickers" to respond to questions displayed on a screen or whiteboard. This system delivers questions in formative, summative, ad hoc or web-driven formats. Every student participates in learning and sees how they're doing with instant feedback while Convey displays group results on screen. Teachers control what the class sees. The AClick handheld remote "clicker" is ergonomically designed with solid construction for classroom use and employs RF technology for dependable, individualized interaction between teacher and students.

ITEM	DESCRIPTION	PRICE
SRS-KIT32	Kit w/32 AClick remotes, RF Base Station, carry case, batteries & Convey software	2395.00
SRS-KIT24	Kit w/24 AClick remotes, RF Base Station, carry case, batteries & Convey software	1895.00
SRS-SINGLE	Single AClick remote w/batteries	70.00
SRSBASE1-USB	RF base station w/USB cable	199.00

DUKANE

1000-0001

DUKANE AUDIO ENHANCEMENT SYSTEMS Audio Enhancement's teardrop-shaped microphone hangs like a necklace to capture and deliver clear sound. The mic operates for 8 hours; no external battery or belt pack required. At the end of the day the pendant mic or hand held mic can be inserted into a charging stand and fully charged by the next morning. The IR signals are confined to the classroom and thus adjacent rooms can be operating with identical equipment without any interference or special settings. A second mic channel is also available in each room.

ITEM	DESCRIPTION	PRICE
1000-0001	Achiever system w/dome receiver, 20W receiver/amp, teacher mic, 4 ceiling speakers, 50ft hook up cable & wires	1395.00

MiPRO

MIPRO MA1O1ACT WIRELESS CLASSROOM PA SYSTEM
Lets instructors carry their own wireless mic from one classroom with wireless speakers to another similar room. Upon entering a room, you can turn that room's system on or off or adjust its volume. You can also play a CD or MP3 player through the speaker by connecting it to the optional wireless mic, which can be used as a handheld mic, a neck-worn lanyard mic, or in conjunction with a hands-free headset mic. Features 100 built-in UHF frequencies, 30W RMS output and wall/ceiling mounting capabilities. Call for assistance with frequency selection.

TeachLogic
FOR SOUND LEARNING

TEACHLOGIC MAXIM II INFRARED WIRELESS SYSTEM
Designed for small presentation environments, Maxim II is the perfect solution for classrooms, secure classified briefing areas or any learning area up to 2,500sq ft. and the infrared wireless communication is free from outside interference (it will not transmit through walls). The base station features (2) 16W amplifiers, (2) built-in wireless infrared receivers, 5-band EQ, and 3 stereo auxiliary inputs (linelevel) with +12dB gain control for added sensitivity to facilitate various media inputs. Each system includes a battery charging station, ceiling dome sensor with 50' plenum-rated cable, and a choice of speaker packages: 4 ceiling speakers with tile bridge, 4 speakers with wall mount brackets, or 4 lay-in ceiling speakers. The intercom page override will mute all inputs and pass the page to additional classroom speakers connected to the Maxim II amplifier. The base station is rackmountable. The Sapphire pendant microphone is an ideal choice for the Maxim system. Weighing just 1.4oz with battery, it is rechargeable via Micro USB, offers exceptional gain before feedback, and is compatible with all TeachLogic IR systems.

TOA

TOA CLASSROOM IR WIRELESS SYSTEMS This system uses infrared transmission, eliminating problems associated with RF (VHF/UHF) type systems. Multiple systems can be used simultaneously in adjacent rooms without interference or eavesdropping. It employs a PLL synthesized system, allowing either of 2 frequencies to be set. Components can run on either alkaline or NiMH rechargeable batteries. The system's IR Tuner can receive signals from any two IR transmitters. The components of the IR Wireless system consist of the IR-702T 2-channel tuner, the IR-200M handheld IR microphone transmitter, the IR-300M body-pack microphone with external mic input, three IR remote receivers (IR-500R, IR-510R, IR-520R), as well as the IR-200BT Rechargeable NiMH Batteries and IR-200BC charging station. The optional IR-700D 4-way distributor has 4 receiver mixing outputs and 2 distribution outputs. When combined with the YW-1022/1024, distributors allow creation of a system with up to 16 infrared receivers.

ITEM	DESCRIPTION	PRICE
IR702T	IR wireless tuner, 2ch fixed-frequency	297.59
IR700D	IR wireless distributor, 6 outputs	229.50
IR200M	IR wireless mic/transmitter, handheld	244.04
IR300M	IR wireless mic/transmitter, hands-free	251.69

eBeam

EBEAM EDGE INTERACTIVE WHITEBOARD

A full-featured interactive whiteboard system that operates in conjunction with a computer and projector. Combine authentic and relevant text, graphics, photographs and animation on up to a 9'x5' image area. Control and navigate data from multiple sources and reach all types of learners. eBeam's Scrapbook features a meeting sharing function to export and save options for collaboration, generating ideas, planing projects, reviewing topics and processes between students and colleagues. Multiple formats, including jpg, pdf, and PowerPoint, can be used to save and distribute captured data. Content can be re-used and shared via e-mail and the web and students can self-assess their understanding of concepts with authentic and familiar visual artifacts. Parents and administrators can get a window into the classroom by viewing a virtual version of what happened on the board. Mac and PC compatible.

ITEM	DESCRIPTION	PRICE
EDGE-USB-EDU	Includes eBeam Edge Receiver, Interactive 3-button Stylus, 15' USB cable, 2 mounting plates, AAA battery, 4 replaceable nibs, eBeam Interact Software CD, wrist strap, and handwriting recognition software.	719.95

VADDIO
REDEFINING CAMERA CONTROL

VADDIO SQUIGGLE VIDEO WHITEBOARD KIT
Capable of being installed alongside almost any existing whiteboard, the Squiggle converts whiteboard notes into a HD or SD video signal. Because no dedicated PC is required, the video signal can then be connected to any videoconferencing, TelePresence, distance education or video media distribution system. In addition to HD/SD outputs, data can be captured and stored as a JPEG image into any USB flash drive.

The Squiggle Video Whiteboard Kit includes the EZTub with Digital Control Panel, Video Whiteboard Quick-Connect Interface, one black marker, one marker sleeve and one electronic eraser.

ITEM	PRICE
SQUIGGLE-WHITEBOARD	1914.00

TRACK-VIEW-HD1

TRACK-VIEW-70

VADDIO TRACKVIEW
TrackVIEW is a presenter-controlled system that incorporates both motion-based camera tracking and camera preset tracking in one system.
The TrackVIEW HD1 System features the Sony EVI-D70 camera, with a wide-angle lens, for the reference camera and the Sony EVI-HD1 for the tracking camera. TrackVIEW HD1 can track to presets with triggers like the StepVIEW Mats or IR Sensors, as well as motion - allowing the presenter to stay on-camera while walking between preset camera shots.
The TrackVIEW 70 System features the Sony EVI-D70 cameras for both the reference and tracking camera. TrackVIEW 70 can track to presets with triggers like the StepVIEW Mats or IR Sensors, as well as motion.

VADDIO SQUIGGLE IP SOFTWARE MODULE
Squiggle IP is a remote streaming video whiteboard. By adding Vaddio's Squiggle IP software module, the existing Squiggle Video Whiteboard Systems can now stream live video to any computer browser that supports OSX, Windows or Linux operating systems. In addition to live streaming, Squiggle IP enables remote image capture and end-user/administrator controls. These functions are accessible by any computer browser, as well as any iOS or Android portable device.

KOSS

ED1TC

KOSS EDUCATION HEADPHONES Ideal for schools, libraries and training departments, these stereophones incorporate a plastic ear cushion for easy cleaning and maximum durability. Formed from highly durable ABS plastic, the ear cushion creates a seal and vacuum to the ear that reduces ambient noise interference and leakage so the sound comes through loud and clear. The ED1TC features an adjustable headband and a dynamic element for a full frequency response. Ultra-durable for everyday use, the cups and headband have been designed to fit a wide variety of head sizes – from children to adults. The ED2TC features a clip design that fits securely around the ear and eliminates the need for a conventional headband. Perfect where minimal hair and head contact is preferred. The ED3 models are single ear clipstyle phones that are identical to the ED2TC, but are single ear only (ordered as left or right style).

ITEM	DESCRIPTION	PRICE
ED1TC	Headphone, 100Hz-20kHz, 32ohms, 98dB SPL, 4' cord	7.74
ED2TC	Clip style 100Hz-20kHz, 32ohms, 98dB SPL, 4' dual entry cord	8.43

HME®

HM ELECTRONICS DX300 COACHES WIRELESS SYSTEM The DX300 provides clear, secure, two-way sideline and press box communication, expandable for up to 20 coaches. It takes minutes to set up and prevents eavesdropping with its digital frequency hopping spread spectrum coupled with 64 bits of encryption. Uses 2 types of communicators with the DX300—the lightweight beltpac or the all-in-one wireless headset. No frequency coordination is required. The system supports offense and defense communication channels. All systems include one MB300 base station with two antennas, AC40A battery charger, a BAT41 spare battery, power supplies, travel case and two 6' headset cables.

TELEX®

LEGACY-5-SYSTEM

TELEX LEGACY 2.4GHZ WIRELESS FOR SPORTS A complete, portable wireless intercom system (up to 14 coaches) that sets up in seconds, and requires no FCC license. The systems are based on 2.4GHz, IEEE 802.11b wireless LAN technology, and incorporate a 64bit audio encryption system. They offer 3 audio channels, and offer full-duplex, hands-free operation. The beltpacks operate on rechargeable lithium ion batteries, and typically get about 8 hours of use per charge (charging time is about 6 hrs). Mic gain adjustments are programmable right on the beltpack (with voice prompts). Units carry a 3-year warranty.

These kits include:
• Sturdy carrying case (weight: 14 lbs. 8 oz., size: 23.5" L x 8.5" W x 20.5" H)
• 1 XO-AP base station
• 1 directional antenna
• Encrypted XO-1 beltpacks (and battery chargers)
• 1 gooseneck antenna mount (with clip for optional remote placement)

LAMPCRAFT SUPER GIGLIGHT

The LampCraft Super GigLight is a portable, day-light color temperature, ultra-bright light that clips on to music stands and podiums so you can read easily while performing. It attaches to lecterns and music stands with a sturdy padded spring clip, and can also sit on table tops, making it convenient for a wide range of tasks. Able to illuminate two full pages of sheet music, it casts a 20" wide by 12" deep cone of LED-produced, low-glare, high contrast, light that is easy on the eyes. With no bulb to burn out, this reading tool lasts up to 50,000 hours and can run eight to ten hours on one set of batteries. Includes a soft carry case and four AA batteries.

MANHASSET®

MANHASSET MUSIC STANDS Longest lasting, most durable music stand made. Rugged, all-aluminum, lightweight desks are ribbed for extra strength. Baked-on, glare-free, black textured finish resists scratches and chipping. Easy, automatic no-knob friction-tilt neck delivers constant tension at any tilt position. Solid-brass bearings, greaseless heavy-duty chrome inner shaft, and the original counterbalanced "Magic Finger Clutch™" provides one-hand friction grip. Secure at any height, even with a heavy load of music. Heavy-gauge, all-steel welded base provides excellent stability and requires minimum space on stage risers or in storage. All the components of the Manhasset Music stands are available and can be purchased separately too. This includes all models of desks, shafts, bases, and all pieces of hardware and fasteners.

National Public SEATING Corp.

8210 & TA82

82MS

NATIONAL PUBLIC SEATING MELODY SERIES MUSIC ROOM PRODUCTS
The 8210 Melody Chair is specifically designed to meet the needs of a musical performance environment. It is designed band-pitch style with a back angle of 97°, allowing for maximum breathing capability. The frame is built with strong 7/8", 16-gauge square tubing, with a 14-gauge rear seat brace. The DY82 Choir Dolly is chrome plated and stacks up to 18 Melody chairs. The 82MS Melody music stand features a desk made of 22-gauge aluminum, and has rolled steel edges to protect instruments. It has a coated black textured finish to prevent scratches and chipping. It vertically adjusts from 26"-46" (lip to floor), via a spring-loaded adjustable tube.

KORG

KORG WI-TUNE WIRELESS INSTRUMENT TUNER
The world's first wireless instrument tuner features a clip on transmitter that sends a signal to a large backlit LCD tuner that can be placed on a music stand, table, or on the floor to accommodate any situation. The main tuner body also has an internal mic and sound out mode that will produce an audible reference pitch from an internal speaker. The transmitter comes in a Clip-on variety for use with guitar, violin, and other string instruments or a strap version for use with saxophone, clarinet or other wind instruments. Markings indicate pure major third and minor third intervals.

SHOWN WITH OPTIONAL GUARD RAILS & CASE

INTELLISTAGE PORTABLE STAGE SYSTEMS

Consisting of modular, lightweight yet rugged platforms and collapsible risers, IntelliStage systems can be set up in a wide variety of heights and configurations by a single person. Sturdy and durable, platforms are capable of bearing weight up to 185lbs/sq ft and are available in carpet or duraflex finish. When it's time to break down, you'll find that disassembly and storage are equally convenient. IntelliStage systems are available in kits with an optional compact storage flight case featuring integrated casters to transport your stage just about anywhere. As your needs grow, so can your stage system -- platforms and risers are also available on an individual basis. Optional upgrade accessories like storage cases for larger systems and stage skirts are also available. Numerous options available, please call for assistance. Common setups listed below.
