

Interchangeable Capsules

VM44 System

Interchangeable capsules for the VM-44 system. Designed for recording in any acoustic environment with total response and maximum clarity.

*Handmade in Sweden
with lifetime warranty*

VM-44 SYSTEM Interchangeable capsules

Interchangeable capsules for the VM-44 system. Designed for recording in any acoustic environment with total response and maximum clarity.

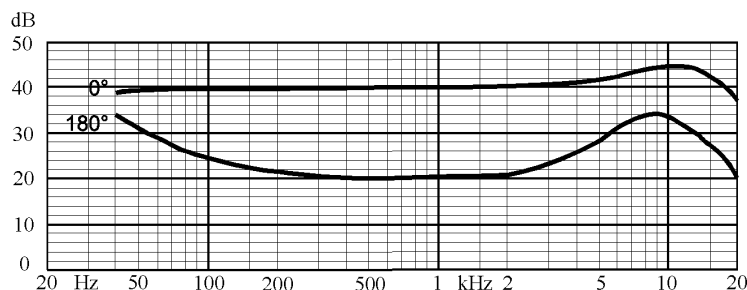

Cardioid Capsule

Art. No 1144

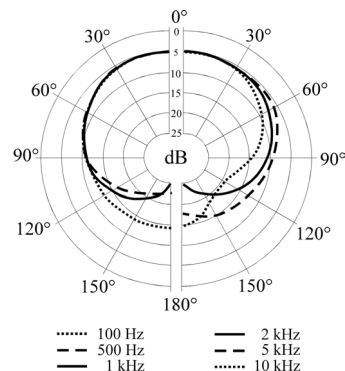

Frequency response (see graph) 20 - 20 000 Hz
 Max. SPL (1% THD at 1 kHz) 128 / 140 dB
 Sensitivity at 1kHz 14,5 mV / Pa \pm 1 dB
 A-weighted noise level 21 dB

Frequency response at 1m distance

Polar diagram

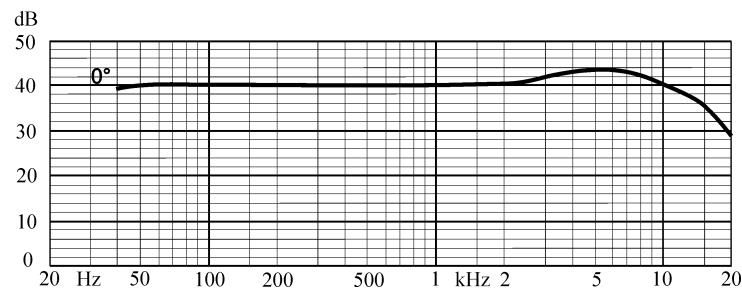

Omni Capsule

Art. No 1145

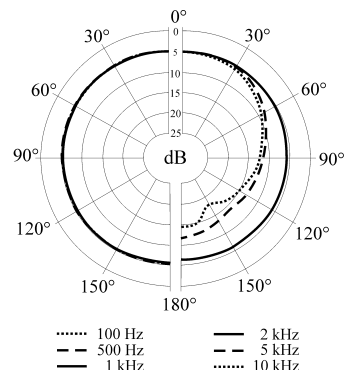

Frequency response (see graph) 20 - 20 000 Hz
 Max. SPL (1% THD at 1 kHz) 124 / 136 dB
 Sensitivity at 1kHz 25 mV / Pa \pm 1 dB
 A-weighted noise level 17 dB

Frequency response at 1m distance

Polar diagram

*The frequency response may vary within $\pm 2,5$ dB of the published graph.
 Before delivery, each microphone is measured and accompanied with it's own graph.*
