MPA-2400

RECHARGEABLE WEATHER RESISTANT TROLLEY SPEAKER

Grab, Go & Listen

Whether heading to the camp ground, park, backyard BBQ or recreational activity, the collapsible built-in trolley, carrying handle and wheels, all provide easy and effortless portability when you are on the move!

Give Awesome Life to Sound

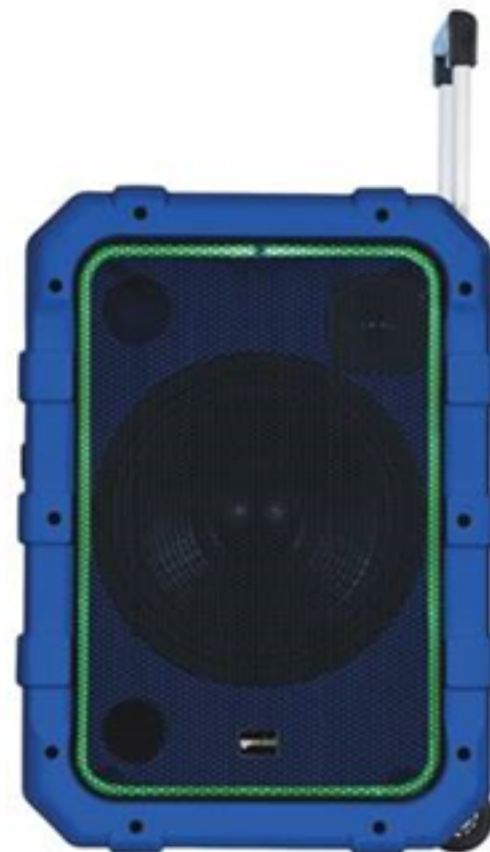

How do you bring music to life? With a 10" woofer for pounding bass, 240W of incredible peak audio power and 6 DSP modes! Shift your speaker from normal, to pop, rock, classical, country and to jazz- all with the touch of a button.

Splish Splash Resistant

A little splishing and splashing never hurt anyone- or this speaker! Its durable and IPX4 rating means water resistant.

OVERVIEW

The Gemini MPA-2400 Rechargeable Weather Resistant Trolley Speaker is a durable unit, splash-proof IPX4 rated enclosure perfect for outdoor use! What makes this speaker truly exceptional is its transportable features. It has an integrated retractable trolley and carrying handle for easy transportation. The DSP EQ Presets take the guesswork out of customizing your sound. To get the party started you can count on exciting multi-colored lighting to spice up your performance and the Mic Echo effect gives your performance that professional sound. Built-in USB Media Player - All you need is a flash drive and some music or you can stream music wirelessly from your smartphone or tablet. This speaker can be controlled with the included remote. FM Radio for your favorite music, sports and new stations. And it comes in two different colors.
