

UTK-1U-HALF

Under-Table Mounting Kit for 1RU Half-Width Devices

The UTK-1U-HALF is an optional mounting accessory for Crestron® 1RU half-width devices. Such devices include certain **DigitalMedia?** transmitters, the **DMCI** DigitalMedia Card Interface, the **CEN-CI3-1** 3-Series® Card Interface, the **CNXHUB** Cresnet® Hub, and various ST series control modules. The UTK-1U-HALF provides a pair of metal brackets that attach to the sides of a single device, allowing it to be screwed to the underside of a table with its top panel facing up. The complete assembly hangs approximately two inches (51 mm) below the underside of the table and maintains access to the device's front and rear panels. The UTK-1U-HALF may also be used to mount a device to a wall or similar surface. Or, a single bracket may be used to attach a device to a single rack rail.

Notes:

This product may be purchased from an authorized Crestron dealer. To find a dealer, please contact the Crestron sales representative for your area.
