

CREWCOM® CB2

The Newest Addition to the Pliant Technologies family of wireless intercom solutions.

Introducing the newest product from Pliant, the CrewCom CB2. A fully-featured, 2-channel affordable wireless intercom system that provides ease-of-use and unparalleled performance without the cost and complexity of many high-end intercom systems. As a new member of the CrewCom family, the CB2 boasts the same proven RF technology, exceptional range, impressive 7kHz audio quality and more! The CB2 is ideal for small venues where existing wired intercom systems need complimentary wireless intercom to extend coverage and functionality.

The CB2 allows connectivity to all common wired intercom systems and offers both 900MHz and 2.4GHz models to help combat the RF challenges facing production and entertainment professionals.

Like CrewCom, CB2's new RP-12 features Pliant's award-winning radio pack design and provides users with a simple-to-use interface in a compact, yet rugged pack. Smart system design and exceptional performance make CB2 a professional wireless system solution that delivers while not breaking the bank.

CRP-12

CB2

Right out of the box, the CB2 is inherently easy to set up and volunteer-friendly, but powerful enough for full-time professionals. Theaters, rental houses, houses of worship, and small productions of all kinds can now add wireless users without compromising audio quality, range, and overall performance.

CB2 HIGHLIGHTS

CB2 HOUSE OF WORSHIP APPLICATION

The CrewCom CB2 is an excellent stand-alone wireless intercom system or can serve as a complement to existing wired intercom to provide mobility to users such as stage managers and camera operators. The system's simplicity, along with exceptional audio make CB2 the perfect choice in applications such as house of worship where an affordable, yet powerful intercom solution is needed.

SMARTBOOM HEADSETS

The SmartBoom® headsets are a line of communications headsets that incorporate a convenient flip-up microphone muting feature and are specifically designed for exceptional comfort, flexibility, and durability as needed in the most demanding professional environments.
