### The Entry Level Duplicator!

For applications requiring "one-off" disc duplication, the QD-1 Quic Disc Duplicator is ideal!

The Quic Disc allows you to make single copies of audio or data discs without tying up your PC or Mac.

With a wide range of supported formats and a compact footprint, the QD-1 fits into almost any application.

Desktop aesthetics and ease-of-use combined with a low SLP of \$699 make the Quic Disc even more attractive.
