

XONE XD-53

DJ HEADPHONES

The new Xone XD-53 professional monitoring headphones have been developed to complete any professional DJ's set up, and perfectly complements the Xone DJ mixer range.

The XD-53's have a circumaural design, providing excellent isolation from ambient noise, which makes them ideal for DJ's working in loud environments. The 53mm speaker drivers deliver an extremely high performance, with an extended low frequency response. The rotating earpieces with soft earpads allow comfortable one-ear monitoring, and the adjustable headband ensures excellent wearing comfort. A 3.5mm stereo plug and a 6.3mm adapter plug are provided.
