Dante Domain Manager
is more security, organization, scalability, and control for Dante networks

Dante Domain Manager™

DANTE DOMAINS
Divide and Conquer

Organize your Dante system into independent, non-interfering groups of audio and video devices called Dante Domains for a clear operational view of each space, across your entire network.

API
Integration and Automation

Integrate Dante control into third-party products and services such as touch panels and monitoring software. Build automations that instantly configure your Dante network for any task, any workflow.

MONITORING, ALERTS AND AUDITS
What's Going On

A real-time Dashboard and Alerts let you know about problems before they are problems. A complete Audit Log allows you to identify improper workflows, malfunctioning devices, and unwanted user actions quickly and

USER AUTHENTICATION AND ROLES
Who's who

Manage the use of Dante Controller with user authentication and roles that restrict what each staff member or volunteer can see or change.

SMPTE 2110
Interoperability in Broadcast

Dante Domain Manager simplifies SMPTE 2210 management, allowing sync with house clocks and integration with Dante devices.

EXPANSION
Subnets and Scale

Dante Domain Manager lets you use Dante over routed networks easily with no change in performance, expanding the range, size and reach of your AV-over-IP system.

DANTE DOMAIN MANAGER EDITIONS

Security and Control that grows with you.

Get started with a Dante Domain Manager edition that suits your needs exactly. Dante Nodes (devices) and Dante Domains can easily be added to any Edition, and key features are available to purchase as add-ons.

SILVER EDITION

- **2 DANTE DOMAINS**
- **20 DANTE NODES**

Dante Domain Manager Silver Edition brings cost effective protection against unwanted changes to your system and allows you to deploy Dante over routed networks. With support for 20 Dante Nodes and 2 Dante Domains and the API, Dante Domain Manager Silver is an ideal solution for smaller installations in houses of worship, recording studios and broadcast facilities.

ADD-ONS let Dante Domain Manager Silver Edition grow to meet your needs.

- ➕ **ADD-ON** additional devices with Dante Node/Dante Domain packs (20/4, 50/10 and 100/20 available)
- ➕ **ADD-ON** SNMP integration with existing monitoring system
- ➕ **ADD-ON** High Availability redundancy for rapid recovery

GOLD EDITION

- **10 DANTE DOMAINS**
- **100 DANTE NODES**

Need more? Dante Domain Manager Gold Edition delivers the same protection and features as Dante Domain Manager Silver and adds LDAP/AD integration and advanced audit log filtering along with support for 100 Dante Nodes and 10 Dante Domains and the API. Dante Domain Manager Gold is perfect for schools, small businesses, and larger houses of worship as part of a comprehensive AV management strategy.

ADD-ONS let Dante Domain Manager Gold Edition grow to meet your needs.

- ➕ **ADD-ON** additional devices with Dante Node/Dante Domain packs (20/4, 50/10 and 100/20 available)
- ➕ **ADD-ON** SNMP integration with existing monitoring system
- ➕ **ADD-ON** High Availability redundancy for rapid recovery

PLATINUM
EDITION

Dante Domain Manager Platinum Edition is Dante management for the largest mission-critical systems found in universities, stadiums, public spaces, and corporate offices. Dante Domain Manager Platinum covers 250 Dante Nodes in up to 50 Dante Domains plus the API and delivers the same security and ease of use of the Silver and Gold editions with even more features, including SNMP support for rapid notification of issues and a High Availability mode that provides robust system redundancy in the event of failure.

The Dante Domain Manager Platinum Edition provides the complete feature set of Dante Domain Manager for ultimate peace of mind. Node + Domain packs allow you to expand your Dante system to over 1000 Dante nodes.

- **50 DANTE DOMAINS**
- **250 DANTE NODES**
- **COMPLETE DANTE DOMAIN MANAGER FEATURE SET**

➕ **ADD-ON** additional devices with Dante Node/Dante Domain packs (20/4, 50/10 and 100/20 available)

ALL DANTE DOMAIN MANAGER EDITIONS FEATURE:

- API for Dante Control
- User Authentication in Dante Controller
- Editable User Roles Permissions per Dante Domain
- Encrypted control traffic
- Automatic discovery of all Dante devices (Dante Nodes)
- Configuration of domains, including across subnets
- Real-time Dashboard and Alerts
- Detailed audit log
- Ability to share audio between Dante Domains
- Advanced external clock synchronization

DANTE DOMAIN MANAGER
EDITIONS COMPARISON
