

Model No.

# TLK

Thumb-turn Cam Latch

---

The thumb-turn cam latch replaces the key lock on a rack's rear door for convenient keyless entry. It's ideally suited to racks located in secure environments where a door lock is not needed.

---

## FEATURES

COMPATIBILITY: The thumb latch is used to replace the key lock on any Lowell rack rear door (LRD Series).

QUANTITY: Includes one latch

COUNTRY OF ORIGIN: China

## A&E SPECIFICATIONS

The rack installation shall include a thumb turn cam latch, Lowell model TLK, to replace the key lock on the rear door and allow keyless entry.
