

## AMERICAN AUDIO

### AMERICAN AUDIO VMS DIGITAL WORKSTATIONS

The VMS4.1 is a digital workstation & MIDI controller with 4 USB/analog selectable MIDILOG™ (MIDI and analog) channels. All audio control faders, knobs, switches, and buttons are smooth, eliminating popping/wiper noises. Also features full analog mixer operation in the event of a computer crash, a 1.6mm-thick faceplate, a built-in mouse pad and MIDI assignable touch-strips. Audio is 24-bit/48kHz or 16-bit/44.1kHz. Includes 2 phono/line selectable analog channels and 2 XLR mic channels. The VMS2 features 2 MIDILOG™ channels, 1 mic input with gain and tone control, crossfader curve adjustment, balanced XLR outs, and comes with Virtual DJ Software™.

ITEM	DESCRIPTION	PRICE
VMS4.1	4-channel USB/analog DJ MIDI controller	499.99
VMS2	2-channel USB/analog DJ MIDI controller	299.99

## DENON

### DENON DN-MC6000 DIGITAL DJ MIXER/ MIDI CONTROLLER

These digital DJ mixers have a MIDI interface and internal stereo soundcard, come bundled with Virtual DJ LE Audio/Video/Karaoke mixing software, are MIDI-mappable, and compatible with other popular DJ programs. Both models include a selectable Video/Audio control cross fader feature, and each side can control up to 2 decks (for a total of 4), with visible deck color change for intuitive operation. Plus they're real mixers, able to process audio inputs for external devices without a connection to a computer. Key features include on-board MIDI effect controls, intuitive layout, dual jog wheels, pitch fader, channel fader, cross fader, File browse navigation keys, rotary encoder file selector knob, high-quality headphone amp, and independent 3-band EQ with "kills". The DNMC3000 features a Layer function for dual deck and 2+2 4ch mixer control, which maintains functionality as well as an ergonomic layout.

ITEM	DESCRIPTION	PRICE
DNMC3000	4-channel digital DJ mixer w/MIDI interface, stereo sound card	579.66
DNMC6000	4-channel digital DJ mixer w/MIDI interface, stereo sound card, 19" rackmount kit	799.00

## novation®

### NOVATION DIGITAL DJ DICER

Cue-point, looping and FX control for DJs. Palm sized cue point/looping controller designed to fit where needed (on turntables, CDJs, mixers, laptops). Works with most DJ software but is optimized for Serato Scratch Live, Traktor Scratch Duo/Pro and Traktor Pro. Can be used to trigger samples, cue-points, loops, FX, browse playlists, nudge tracks backwards/forwards or be assigned to more functions. Three main modes each have their own color when activated. Red for Hot Cue, green for Loop Roll and orange for Auto Loop. USB bus-powered and fully MIDI compliant. Comes with two DICERs for a total of 60 buttons.

ITEM	DESCRIPTION	PRICE
DICER	DJ controllers, pair	99.99
DICER-CASE	Case for 2 Dicers	14.99

### NOVATION TWITCH TOUCHSTRIP DJ CONTROLLER

Use touchstrips to navigate tracks and slice up beats then mix back together, all on the fly. Features built in 2-in 4-out audio interface, 8 large triggerpads per deck, 2 touchstrips for navigating tracks, FX section controls, (2) channel faders, (1) crossfader, (2) rotary encoders, (2) headphone assign buttons, (2) fader FX assign buttons and more. Master section has 4 pots, headphone level, master/cue mix, booth level and master out level control. The Audio interface has (2) 1/4" TRS balanced master outs, (2) L/R phono jacks, (1) TRS mic in, (2) headphone outs on (1) 1/4" TRS and (1) 1/8" jack, (1) direct monitoring output and more. Comes with Serato ITCH DJ software but will also work with Traktor and Ableton.

## NATIVE INSTRUMENTS

### NATIVE INSTRUMENTS TRAKTOR

**KONTROL F1** The definitive hardware for controlling the Remix Decks™ in Traktor Pro 2.5 – the flagship DJ software included with the F1. Launch clips in an intuitive, DJ-centric way. Control the Remix Decks just like regular track decks, switching between up to 64 tracks, loops and one-shot samples on each deck. The Kontrol F1 includes 1.4GB of premium-grade sound, pre-loaded as Remix Sets. You can also import your own samples or capture loops and sounds live, using the controllers pads and faders.

ITEM	DESCRIPTION	PRICE
TRAKTOR-KONTROL-F1	Remix deck controller	249.00

### NATIVE INSTRUMENTS TRAKTOR KONTROL

**S2** A professional 2-deck controller with a mixer, controls for multi-effects units and a third channel for samples. Its ergonomic mixer section has 3-band EQ, rugged long-life faders and headphone pre-listen cue buttons. An additional "Samples" knob allows smooth mixing of all 8 Sample Deck slots as a third channel.

The Kontrol S2's high-res jog wheels are pressure-sensitive and feature 30 times more data transfer than competing controllers using standard MIDI protocol. High-end Cirrus Logic AD/DA converters and an audio response of 24-bit/96kHz provide pro-quality sound. This rugged portable controller ships with the full version of Traktor Pro 2.5. The mirrored design of the controller reflects the layout of the software, ensuring ease of use. I/O consists of 1/4" TRS and stereo RCA.

ITEM	DESCRIPTION	PRICE
TRAKTOR-KONTROL-S2	2-deck DJ controller w/software	499.00

### NATIVE INSTRUMENTS TRAKTOR S4 PERFORMANCE DJ SYSTEM

Custom-tailored for TRAKTOR, the S4 fuses a premium-quality 4-channel DJ mixer, a built-in 24-bit/96kHz soundcard, an intuitive controller, and the flagship TRAKTOR PRO S4 software into one fully professional solution - the ideal one-stop package for DJs who want pro features, instant usability and go-anywhere portability. It features sturdy faders, CUE buttons, illuminated level meters, high-quality 3-band EQs and a filter control knob on each channel. The filter is switchable between Traktor and Xone-style. The ergonomic layout has been created by DJs for DJs, with some of the world's biggest names having direct input in to the design. It's easy to integrate other DJ and performance gear like turntables, CD players or a microphone via the inputs. It includes 4 line/phono selectable RCA inputs, two RCA and 1/4" main outs, 1/4" mic input with gain knob, footswitch, and MIDI I/O connectivity.

ITEM	DESCRIPTION	PRICE
TRAKTOR-KONTROL-S4	Controller/software/USB audio interface DJ solution	799.00

### NATIVE INSTRUMENTS TRAKTOR KONTROL

#### X1 USB DJ CONTROLLER

The first official Traktor controller for use with any DJ software. Whether you use DVS timecode or software, simply connect it to a computer running Traktor (or other performance software) and gain instant control of your decks and effect parameters. Robust rotary knobs with a heavy-duty feel and backlit buttons provide precise visual and tactile status feedback - letting you explore Traktor without having to touch your computer. All buttons and knobs have been pre-mapped for optimum Traktor R use but can be re-configured in any way you like. It can also be used as a MIDI controller for any software as well as expanded with a second unit to control 4 decks and 4 FX units. Includes Traktor LE DJ software and Kore 2 Player/Instrument with 600 MB of production-ready sounds.

# Numark

## NUMARK MIXDECK UNIVERSAL DJ SYSTEM

For DJs with multiple music sources such as CDs, USB drives or portable audio devices. It features 2 touch-sensitive platters and controls for cueing your music and can also act as a software controller by connecting to your computer via USB cable. The MIXDECK can also receive 2 stereo audio channels via USB. It features an integrated dock, a dedicated fader, menu controls, a click knob, and the capability to record a live mixed set onto an iPod. Each input channel on the MIXDECK features 3-band EQ and gain rotary kills (+12db/-INF), and the fader features switchable slope and reverse. Adjustable beat-synced DSP effects include chop, flanger, echo, filter, phaser, and pan. Additional features include, beat & pitch tools, a tap tempo button, Key Lock, pitch-bend buttons, seamless looping, sampling, and fader start. Inputs include 2 sets of switchable stereo phono/line inputs and a 1/4" mic input with gain and bass & treble EQs. All outputs are stereo and include balanced XLR & unbalanced RCA main outs, RCA booth and record outs, RCA deck 1 & 2 outs, direct stereo outs on each deck for use with interfaces like Serato Scratch LIVE, and 1/8" & 1/4" cue/headphone outs.

ITEM	DESCRIPTION	PRICE
MIXDECK	CD/MP3/software DJ mixer	699.95

## NUMARK 4-TRAK TRAKTOR CONTROLLER

This controller offers four decks of software control, a four-channel mixer and total command over all effects. Its built-in 4-channel mixer has RCA inputs on each channel and 4 line-level inputs (2 switchable to phono, 2 switchable to mic) allowing you to bring turntables, microphones, MP3 players and more into the mix. The FX Command Console offers top-level access to effect and filter parameters. Layer effects, adjust filters, mix-and-match both in way that were previously impossible. The Command Console gives you two decks of effects controls, plus 4 detented filter knobs for each mixer channel. The Strip Search virtual-needle-drop technology allows you to locate any point on a track by using an advanced touch strip on each deck. LED track indicators above each strip provide real-time visual feedback about the track's position. 4TRAK's platters have 3600 ticks of resolution per rotation along with automatically adjusting sensitivity, providing tight response and control. Other offerings include 24-bit audio interface and the 4TRAK Edition of Traktor software.

**NEW!**

ITEM	DESCRIPTION	PRICE
4-TRAK	4-deck Traktor controller	999.95

## NUMARK MIXTRACK SERIES DJ SOFTWARE CONTROLLERS

These MIDI-compliant, USB-powered controllers are and feature a standard 2 turntable/mixer layout. Both also feature line faders, deck EQs, advanced looping and effects controls, and support MP3s, WAV files, AIFFs, and many other file types for playback. MIXTRACK does not require software drivers and comes with Traktor LE; MIXTRACKPRO includes Serato DJ Intro and Virtual DJ LE.

ITEM	DESCRIPTION	PRICE
MIXTRACK	DJ software controller w/Traktor LE	149.95
MIXTRACK-PRO	DJ software controller w/ DJ Intro & Virtual DJ LE software	249.95

## NUMARK NS6 4-CHANNEL SERATO™ ITCH CONTROLLER/MIXER

This 4-channel digital controller has a mixer with effects and 4 decks of software control. It is based on the designs of Numark's NS7FX and V7 controllers and newer features include high-resolution (3600 per rotation) touch-activated platters, Strip Search virtual needle drop technology with new track position indicators, direct access to beat grid controls, and bi-color LEDs around both wheels that indicate the deck in control and a deck's playback status. Beat skip allows you to juggle the track in line with the beat so that it never loses sync. Other features include mouseless Serato library navigation, key lock, complete pitch control, hot cues, manual & instant looping, and a 24-bit audio interface. Has XLR outputs, headphone out, 2 mic ins, 2 phono ins, 4 line-level ins, and USB. Comes with Serato ITCH and is compatible with a variety of MIDI software programs.

ITEM	DESCRIPTION	PRICE
NS6	4-channel Serato ITCH controller/mixer (includes ITCH software)	999.95

## NUMARK NS7FX SERATO™ EFFECTS CONTROLLER

This high-resolution software controller comes with Serato ITCH and CUE DJ programs (also compatible with any MIDI software). Features a 24-bit USB 2.0 audio interface (2-in/4-out) which it uses to send MIDI signals at 2 to 3x normal speed. Has balanced XLR & unbalanced RCA connections. Because it was designed for ITCH, setup time is at a minimum.

NS7FX	Serato/effects controller kit	1299.95
NS7-CASE	Flight case for NS7FX	299.95

# RANE

## RANE SERATO SL3 USB INTERFACE

The SL 3 connects 1 or 2 standard vinyl or CD turntables to your computer and the mixer of your choice. Using regular turntables or CD players, you can scratch and mix files from your Mac or Windows computer's CD or hard drive. It features studio grade preamps, 24-bit audio processing, and auxiliary I/O. The auxiliary inputs provide a live input feed for creative sampling or recording your set. Use any combination of audio sources: control CD, control vinyl, MIDI or regular CDs and vinyl for more flexibility than ever. The included 12" vinyl records and control CDs each have Serato's exclusive and unique control signal, which allows Scratch Live to track the motion of the record, simulating the same movement with digital audio.

ITEM	DESCRIPTION	PRICE
SL-3	USB 2.0 interface for DJ's	699.00

## RANE SERATO SCRATCH LIVE PACKAGE

Includes the SL 2 USB interface as well as Serato Scratch Live software for the ultimate solution, bridging the analog world of computers. Using regular turntables or CD players, files from a computer hard drive can be scratched and mixed. The Scratch LIVE system features full iTunes library support, extensive keyboard shortcuts and auto-BPM/auto-gain detect functions. The included SL 2 interface connects 1 or 2 standard vinyl or CD turntables to your Mac or PC. This bus-powered USB interface features 24-bit 44.1/48 kHz sample rates, 2 switchable phono or line inputs, a microphone input, 2 line RCA outputs and pass thru outputs for the phono/line and mic. The included (2) 12" vinyl records each have a unique control signal that allows Scratch Live to track the motion of the record, simulating the same movement with digital audio. Package includes SL 2 USB interface, (2) control vinyl records, (2) control CDs, Serato Scratch Live software, (4) RCA cables and (1) USB cable.

## Pioneer XDJ-AERO WIRELESS DJ SYSTEM

**NEW!**

Designed for DJs using tracks in smartphones and tablets via WiFi, the XDJ-AERO mixer also features 2 on-board media players. Free apps allow tracks stored in up to four mobile devices to be played and mixed wirelessly. It also has ports for connecting external devices such as CD players and turntables, allowing it to also be used as an independent mixer. Jog controls combined with onboard effects enable a wide range of arrangements and mixes. The Beat Sync™ button automatically synchronizes tracks while the Auto Mix function enables playback of playlists using cross-fade or fade-in/fade-out. A USB port on the top panel allows direct recording to a USB storage device. Other features include a high-performance channel fader, Auto Beat Loop™ function, Quantize function, LCD screen, 3-band EQ, MIDI/HDI control capability, built-in high-quality audio interface and microphone-in jack.

ITEM	DESCRIPTION	PRICE
XDJ-AERO	Wireless DJ mixer/controller system	1199.00

## stanton STANTON SCS.4DJ DIGITAL DJ SYSTEM

**NEW!**

Powered by the SC-IX operating system, this controller system has 2 decks and an integrated mixer. This software/hardware system does not need a computer to operate. High-resolution, 4.75" touch-sensitive, naturally-weighted zinc platters offer a true turntable feel. Each deck has full transport control and can be used in a variety of modes, including scratch, touch start, tempo or band mode. The mixer stage contains a full 3-band equalizer per channel with individual key controls, channel activity LEDs and a long-life digital crossfader. Crossfader curves, microphone gain and headphone gain can all be customized to match your requirements. Four synchronized effects per deck are available. The SCS.4DJ can even record direct to any USB storage device so you can share your performance or playlist with friends via cloud sharing sites. Other features include 4.3" high resolution color LCD screen, 7-LED output meters, TAP tempo button, auto gain, auto loop, re-loop, headphone cue/listen and smart sync capability.
